

Back-to-School Internet Safety and Online Security:

As kids head back to school, they're spending more time online—for homework, socializing, and entertainment. With the increased use of the internet, children and teens face online cyberbullying, identity theft, scams, and exposure to inappropriate content. It's more important than ever to ensure their online safety. Talk to your children about responsible internet usage, monitor social media and gaming activity for harmful interactions.

Stay One Step Ahead with Aura

Aura provides peace of mind with its all-in-one protection. Here's how Aura can help protect your family from cyber threats:

Identity Protection: Aura monitors your child's personal information and alerts you to suspicious activity, protecting their identity from being stolen.

Safe Browsing Tools: Aura's VPN (Virtual Private Network) encrypts data to prevent hackers from accessing sensitive information while kids are on school networks.

Parental Controls: Aura offers content filtering and parental controls to block inappropriate sites and limit screen time.

Password Manager: Ensuring strong passwords is vital for securing accounts. Aura provides a password manager to store and protect passwords.

Aura Protection Family Plan provides a convenient solution for Suffolk AME members and their extended families. This plan offers *comprehensive protection for up to 10 adults and 10 minors*, including identity theft and financial fraud protection, real-time fraud alerts, credit profile monitoring, personalized support, and \$5M in ID theft insurance.

Members can enroll in the Aura Protection Family Plan at *no cost* OR members can choose to purchase *additional* coverage at \$8.00 per month through the Protection Plus Family Plan.

In an effort to ensure member sign-up is quick and easy, Aura has provided helpful, step-by-step instructional videos. Please find your video below! Please note, there are two different videos, one for Retirees and one for Active members.
